EDUCATION

2025 **MCA**, 86.6%
Aligarh Muslim University

2022 **BSc (Computer Application)**, 81%,
Aligarh Muslim University

(Degree attested by UAE Embassy)

TECHNICAL SKILLS

Frontend: React.js, React Native, Next.js, Expo, Tailwind CSS, HTML5, CSS3
Backend: Node.js, Express.js, NestJS, PHP
Database an ORM: MySQL, PostgreSQL, MongoDB, TypeORM, PrismaORM
Languages: JavaScript, TypeScript Python, Java
Authentication & Security: JWT, OAuth 2.0, Role-Based Access Control (RBAC), Session Management

Version Control & Tools: Git, GitHub, VS Code, Postman, Swagger, FileZilla, Jira, Linear, Playwright
Design Tools: Figma, Canva
Deployment: AWS EC2, Docker, Expo EAS Build, Vercel, Railway
APIs & Development Practices: RESTful APIs, SaaS Development, Agile Development, CI/CD Pipeline

CAREER OBJECTIVE:

Motivated software developer with hands-on experience in web technologies like JavaScript, React, Next.js, Node.js, TypeScript, Nest.js, with experience in SaaS development. Seeking an opportunity with a forward-thinking web development company to build scalable applications, grow my technical skills, and contribute to high-quality software solutions. I stay updated with emerging trends and use AI tools effectively to enhance efficiency and reduce development time when applicable.

WORK EXPERIENCE:

Full Stack Developer
AZ Energy Studio – Dubai, UAE
June 2026 – Present (Freelance)

- Working independently on the AZ Energy platform, developing a scalable energy-management and BMS solution from the ground up.
- Built the frontend using Next.js, TypeScript, Tailwind CSS, and modern UI/UX themes and components.
- Developed the backend using NestJS, PostgreSQL, and Prisma, including secure multi-tenant architecture, RBAC, APIs, and database design.
- Designed customizable dashboards, themes, analytics, equipment/telemetry structures, and admin functionality while collaborating on system architecture and product requirements.
- Responsible for the complete development lifecycle, including architecture, implementation, testing, deployment, and ongoing improvements.

Full Stack Developer
The Codx – Dubai, UAE
September 2025 – June 2026 (Full Time – Remote)

- Developed and maintained **cross-platform mobile applications** using **React Native (Expo)** and **full-stack web applications** using **React, NestJS, and PostgreSQL**, delivering end-to-end features across the stack.
- Built and shipped **iOS and Android** applications using **Expo/EAS Build**, while deploying and maintaining web applications on **Railway** and **Vercel**, streamlining release and deployment workflows.
- Independently owned multiple application modules from **development to production deployment**, while collaborating with cross-functional teams to deliver features on schedule.
- Designed and integrated **RESTful APIs**, optimized PostgreSQL database interactions, and implemented scalable backend services using **NestJS**.
- Contributed to code reviews, technical discussions, and feature planning, demonstrating strong ownership, problem-solving, collaboration, and leadership in delivering high-quality software.

Full Stack Developer
Engineering and Environmental Solutions – Aligarh, India
September 2024– September 2025 (Full Time)

- Developed and maintained **full-stack web applications** using **React.js, Express.js, and MySQL**, improving application performance through optimized database design.
- Implemented **JWT authentication** and **role-based access control (RBAC)** to secure user access and backend APIs.
- Built responsive user interfaces using **Tailwind CSS** and integrated RESTful APIs for seamless frontend-backend communication.
- Developed multiple **SaaS solutions**, including IoT dashboards and business web applications.
- Collaborated with domestic and international clients to gather requirements, deliver features, and participate in Agile planning and code reviews.
- Authored technical documentation and conducted knowledge-sharing sessions for technical and business teams.

Backend Developer Intern
Sofyrus Technologies – Aligarh, India
June 2024 – September2024 (Full Time)

- Developed and maintained RESTful APIs using **NestJS**, enhancing the application's functionality and performance.
- Modified existing APIs to improve efficiency and implement new features based on user feedback and business requirements.
- Collaborated with front-end developers to integrate API endpoints, ensuring seamless data flow and user experience.
- Utilized **PostgreSQL**, **TypeScript** and various NestJS modules to build scalable and maintainable server-side applications.
